## SUMMARY

Backend Software Engineer specialized in Java and Golang, with solid experience in frameworks such as Spring Boot, Hibernate, Spring Data JPA, and Spring Security (JWT). Extensive knowledge in building and integrating REST APIs and relational and NoSQL databases, API Gateways with Kong, working knowledge of messaging systems (RabbitMQ, Apache Kafka), and experience with documentation using OpenAPI and Swagger. Seeking a position to apply and expand my skills, contributing my experience in developing robust, scalable, and efficient solutions.

## PROFESSIONAL EXPERIENCE

**Software Developer** **March 2025 – Present**

Engineering – São Paulo, SP (Remote)

- Developed REST APIs, orchestrators, and validation middlewares in Go, both for building new microservices and migrating legacy services.
- Migrated applications using Kubernetes for container orchestration and Kong as API Gateway to manage and secure traffic.
- Implemented Go templates and validation middlewares to structure and ensure data consistency in requests, increasing reliability in system communications.
- Optimized the CI/CD pipeline through containerization with Docker and automated deployment pipelines in GitLab, increasing release speed and reliability.
- Integrated internal systems via gRPC, HTTP, and messaging, with dashboards in Grafana and Kibana/Elastic for monitoring and observability.
- Suggested process and system improvements, including Generative AI use cases, for one of the company's internal platforms, later implemented by the platform's technical leads.
- Troubleshoot and resolve production incidents as part of an on-call rotation.

Technologies: Go, Docker, Kubernetes, API Gateway (Kong), gRPC, REST APIs, JSON, Grafana, Kibana/Elastic, CI/CD, GitLab, Redis, Messaging, Python, Java, Oracle, GCP, Linux, Generative AI, Scrum

**Software Development Intern** **August 2023 – March 2025**

Empresa 1 – Belo Horizonte, MG (Remote)

- Collaborated on the migration of a legacy C++ application to web using Spring Framework and AngularJS.
- Designed and optimized SQL database queries for relational databases, reducing response time by 30%.
- Designed and implemented REST APIs with Spring and Hibernate, efficiently integrating internal systems.
- Automated builds with Maven and managed database migrations with Liquibase, ensuring consistent CI/CD.
- Worked in agile squads (Scrum), contributing to sprints, backlog refinement, and daily meetings for iterative, demand-driven deliveries.

Technologies: Java, JavaScript, AngularJS, Spring Framework, Hibernate, Oracle, SQL, Wildfly, Agile, Scrum, C++

## EDUCATION

**Centro Universitário União das Américas Descomplica – Uniamérica** **March 2026 – March 2027**

Postgraduate Lato Sensu Specialization in Software Engineering – In progress

**Centro Universitário União das Américas Descomplica – Uniamérica** **January 2023 – March 2026**

Bachelor's Degree in Computer Science

**Centro Federal de Educação Tecnológica de Minas Gerais – CEFET-MG** **February 2018 – March 2021**

Technical Degree in Electro-electronics

## RELEVANT CERTIFICATES

Claude Partner Badge - Claude Code, Full Stack Web Development – Curso.dev; Stellantis Education Award; Oracle Cloud Infrastructure Foundations Associate (1Z0-1085-25); AWS Academy Cloud Architecting; AWS Academy Cloud Foundations; Oracle Next Education F2 T4 Back-end; Formação Python, Data Science no OCI e Oracle Analytics; EF SET English Certificate (B2 Upper Intermediate); Java Foundations; ChatGPT Prompt Engineering for Developers

## LANGUAGES

- Advanced English (B2 Upper EFSET, C2 Reading – C1 Writing)
- Native Portuguese

## SKILLS

**Languages:** Java, Go, JavaScript, TypeScript, Python, SQL, Shell
**Front-end:** Next.js, React, AngularJS, Tailwind CSS, Bootstrap
**Back-end:** Spring Boot, Spring Data JPA, Spring Webflux, Spring Security (JWT), Hibernate, Node.js
**Databases:** PostgreSQL, MySQL, Oracle, SQLite, H2, MongoDB, Redis
**DevOps/Cloud:** Docker, Git, GitHub, GitHub Actions, GitLab, Kubernetes, Maven, Kong (API Gateway), CI/CD, GCP, AWS
**Messaging:** RabbitMQ, Apache Kafka
**Tools:** JUnit, Mockito, Testcontainers, Flyway, Liquibase, Swagger, Jest, Linux, Grafana, Elastic

## PROJECTS

**1 – Shopping-cart-service**
**Overview:** Shopping cart management microservice with MongoDB and Redis cache.
**Technologies:** Java, Spring Boot 3, Spring Data, Hibernate, MongoDB, Redis, OpenFeign, Lombok, Docker, Swagger
**Repository:** https://github.com/Ranieeery/shopping-cart-service

**2 – QuickEvent**
**Overview:** REST API for managing events following the principles of clean architecture and SOLID.
**Technologies:** Java, Spring Boot 3, Spring Data JPA, Postgres, Flyway, Validation, Docker, Clean Architecture, SOLID
**Repository:** https://github.com/Ranieeery/QuickEvent

**3 – Mnemo**
**Overview:** Desktop installable application to manage and organize user's local video library.
**Technologies:** TypeScript, Rust, Tauri, React, Vite, Tailwind, Radix UI, TanStack Router, TanStack Query. Zustand, Vitest, SQLite, Biome, ffmpeg, ffprobe, Artificial Intelligence (AI)
**Repository:** https://github.com/Ranieeery/mnemo

**4 – Medical Clinic API**
**Overview:** REST API for managing a medical clinic, developed with Spring Boot and MySQL.
**Technologies:** Java, Spring Boot 3, Spring Data JPA, Hibernate, MySQL, Flyway, Lombok, JUnit, Mockito, Swagger, JWT
**Repository:** https://github.com/Ranieeery/medical-clinic-api-with-spring

**5 – E-commerce Chatbot**
**Overview:** A Spring Boot application that implements a customer service chatbot.
**Technologies:** Java, Spring Boot, Spring Webflux, Thymeleaf, JavaScript, jQuery, OpenAI API, Artificial Intelligence (AI)
**Repository:** https://github.com/Ranieeery/ecommerce-chatbot

**6 – Habits Tracker**
**Overview:** Full Stack application for monitoring and maintaining daily habits, available for web and mobile.
**Technologies:** TypeScript, Hono, Cloudflare Workers, Cloudflare D1, Drizzle ORM, Better Auth, Zod, React, Vite, Tailwind, TanStack Query, React Native, Expo, SQLite, GitHub Actions
**Repository:** https://github.com/Ranieeery/Habits-tracker
